**MIMOSA SYSTEMS NAMED TOP 75 EMERGING COMPANY
BY LEADING RESELLER CHANNEL PUBLICATION**

CRN Also Selects Mimosa as One of Five "Storage Standouts" On Prestigious List

Santa Clara, Calif. – December 12, 2006 – Mimosa Systems™, a leader in unified information management solutions for enterprise content, today announced that it has been named as one of the technology industry's top 75 "Emerging Vendors" and one of five "Storage Standouts" by *CRN*, the industry's leading publication for news analysis and perspective to the technology solution provider community.

Mimosa was selected to be on *CRN*'s Top 75 Emerging Vendor list and was recognized for delivering high margins for solution providers with innovative and easy-to-use technology that undercuts industry giants.

The *CRN* list of Storage Standouts identifies five storage vendors with the hottest technologies and faster ROI that solution providers should take a closer look at if they are looking for new ways to manage, protect, restore and archive customers' data.

"Mimosa Systems combines e-mail archiving and recovery...into one application...to index e-mail into a searchable database," said Joseph F. Kovar in the *CRN* article titled "5 Storage Standouts." "The search is used for recovering individual e-mail messages that have become corrupted or lost. But its real power is for compliance and auditing, since users can do complex keyword searches of the database for legal purposes."

"The demand for email archiving is exploding as companies both large and small realize that it has become an essential solution," said Lee Green, vice president of marketing, VLSystems. "Mimosa NearPoint's unique combination of email archiving, data protection and disaster recovery combined with the ease of installation makes it a very attractive solution for the channel. Mimosa is a key part of VLSystems' strategy this year. No one else has a solution like it."

"Mimosa is proud of the success of its reseller program and the rapid growth of revenue through the channels," said T.M. Ravi, president and CEO of Mimosa Systems. "The deep knowledge of our channel partners in helping customers with Exchange, storage, eDiscovery and compliance is a core driver of Mimosa's ongoing success. The feedback of our solution partners has also been instrumental in extending our solution to address the needs of our mutual customers."

The 75 *CRN* Emerging Vendors listed in the 2006 directory were either nominated by solution-provider partners or recommended in the *CRN* Emerging Vendors Survey. The *CRN* Emerging Vendor directory can be found at: <http://www.crn.com/sections/special/emergingvendors/index.jhtml>.

About *CRN*

CRN provides solution providers and technology integrators with the crucial information and analysis they need to drive their company's sales. As an advocate for and voice of the channel, solution providers turn to *CRN* first for immediate information. With nearly 25 years of experience, *CRN* is the most trusted source for 117,000 channel professionals. *CRN* can be found on the Web at <http://www.crn.com>.
